## NSD ( Oil Immersed Star Delta)

Having a definite quality control system, we are in bringing forth a top class NSD Type Oil Immersed Star Delta Starter. It the fastest moving product in compare with our all oil immersed type starter. We can able to cater the product throughout the country only because of its unparallel quality and viability.

NSD is manually operated, oil immersed wall mounting type, Star/Delta Starter suitable for 415 VAC 3 Phase, 50 Cycles, A.C. supply, without first filling of oil, Ammeter and unpacked as per IS : 8544 (Part-I1)-1977.

NSD is highly reliable & time tested starters, suitable for wide range of agriculture, Irrigation & industrial applications.

This rugged Starter comes with superior protection features and easy maintenance, provided with instant magnetic over load protection by adjustable oil dash pot. The No-Volt Coil is designed to withstand wide Voltage fluctuations and offers complete motor protection against overload, & severe unbalanced voltages conditions

Power	Up to 200 H.P
Starter Type	Manually operated Oil Immersed type Star Delta Starter
Voltage	415 VAC
Coil Voltage	415 VAC
Current Rating	Depends upon HP
Phase	Three Phase
Frequency	50 Hz
Current Type	AC
Material	Mild steel Powder Coated
Brand	BEEBEE
