

## RUN ( Star Delta Starter )

This is one of our star delta starters models. It is compact in design manually operated oil immersed type starter.

This is a premium quality product is a well-known ecommerce platform for qualitative range of Oil Immersed Star Delta Starter is manufactured by using quality assured material and advanced techniques, which make them up to the standard in this highly challenging field.

RUN are designed for starting 380/440 volts, 3 phase, 50 cycles A.C. Squirrel Cage Induction Motors, as per 18:13947 Part 4 Sec. 1. 1993.

The Starters are rugged in construction with sheet steel enclosures fully treated anti rust proof (Phosphate Coating) and Paint by Powder Coated.

The Starters are manually operated Star Delta wall mounting type with provision for hand tripping by means of red push switch provided in the front side.

The starter is provided with instant magnetic over load protection by adjustable oil dash pot. The No-Volt Coil is designed to withstand wide Voltage fluctuations. The contacts are made by electrolytic copper and designed such a way that the contact can be used twice, both the fixed and moving.

Power	Up to 30H.P
Starter Type	Manually operated Oil Immersed type Star Delta Starter
Voltage	415VAC
Coil Voltage	415VAC
Current Rating	Depends upon HP
Phase	Three Phase
Frequency	50 Hz
Current Type	AC
Material	Mild steel Powder Coated
Brand	BEEBEE
